DLA Piper is proud to have assisted the owners of Anchersen A/S in connection with a 100% sale to Keolis Danmark A/S.

Anchersen A/S was founded in 1997 and is a key player in sustainable public transportation in Denmark - especially in the Copenhagen area and on Zealand.

The transaction was subject to approval from the Danish Competition and Consumer Authority which was published on 16 April 2025.

As part of the transaction, Keolis Danmark A/S acquires Anchersen A/S' bus activities, including more than 600 employees, a fleet of more than 130 buses and a bus depot located in Hvidovre (Jernholmen). With the acquisition, Keolis strengthens its strategic position in the metropolitan area and expands its capacity within electric and sustainable mobility.

The sellers retain the coach activities, which will continue under the company Anchersen-Fladså.

The transaction team from DLA Piper consisted of Pia Lykke Mathiasen, Patrick Andersen and Bahja Kulane.
